Better Plants for New England

Growing Since 1849

"BETTER PLANTS FOR NEW ENGLAND" is not a conceited statement. It is a slogan we adopted as a challenge to ourselves and an obligation to you. For over ONE HUNDRED YEARS we have been trying to make this slogan a reality. Modern mechanical equipment has improved our methods of cultivation, production and packing.

We are also continually testing scores of plants and eliminating those that do not possess the Yankee hardiness to withstand our rugged climate.

This discarding of inferior varieties assures our customers of receiving only BETTER PLANTS FOR NEW ENGLAND.

Adams Nursery-Mart

Conveniently located directly back of our office where you will find a comprehensive assortment of "SHOW WINDOW QUALITY" plants on display.

We invite you to visit our Nursery-Mart where you can select your Evergreens, Rhododendrons, Azaleas, Shade, Flowering and Fruit Trees, Flowering Shrubs, Potted Roses, and Perennials. Each will be labeled with name and price to save you time. You may go where you please, and stay as long as you like. You will not be approached unless you express a desire for service. We offer you our experience of over one hundred years in solving your plant problems.

In addition we have all the garden accessories, such as Fertilizers, Insecticides, Lime, Peat Moss, Grass Seed, Garden Tools, etc.

Plenty of parking space has been provided adjacent to the Mart.

The ADAMS NURSERY MART will be open April 1st and every week day during regular business hours. No business will be transacted on Sunday.

Landscape Your Home for Privacy and Better Living

Adams Planning and Advisory Service

We maintain a staff of competent landscape men, professionally trained and experienced to help home owners select the right plants for the proper locations. Whether you have a large estate or a cottage, we are thoroughly equipped to help you.

Perhaps You Would Like

A hedge to give you privacy, a plant barrier to keep out wind and noise, a foundation planting for year round beauty, a Rose garden to bloom all Summer, a flowering shrub border to give color at various seasons, an outdoor living room or a complete plan for planting your home grounds, which can be accomplished on a budget plan.

The following three types of service are available:

1. FREE SERVICE

There is no charge if you bring a photograph or plot plan, showing the measurements of existing conditions, to our NURSERY-MART. We will discuss your planting problems with you and make suggestions. While you are here you can see the plants recommended.

2. SERVICE FOR A NOMINAL FEE

Should you desire the services of one of our landscape men at your home, there would be a **Service Charge of Five Dollars** payable at time of consultation. This would include their suggestions, and a rough sketch, showing the arrangement of the plants suggested. Telephone for an appointment.

3. LANDSCAPE PLANTING PLANS

Should a complete detailed landscape plan be required we offer this service at a **minimum** charge of \$35.00, payable in advance with this fee scaled according to the size and complexity of the landscape problem.

PLANTING SERVICE

We urge our customers to "DO IT YOURSELF", especially on small orders.

Planting can be arranged on orders amounting to \$100.00 or more by our Landscape Department.

For those who desire planting service of smaller orders we will submit a list of available landscape contractors. Our SIX MONTHS GUARANTEE is valid regardless of who plants.

"PLANT IT YOURSELF"

AND SAVE MONEY

Additional pride and satisfaction are gained when you do your own planting and gardening. If your plans are not too ambitious, planting can be a pleasure and a source of relaxation.

Planting requires no special skill and our SIX MONTHS GUARANTEE is the same regardless of who plants.

The rising cost of labor has caused a definite trend to "DO IT YOURSELF." The following sketches demonstrate how easy it is.

HOW TO PLANT

Proper planting, pruning and watering are essential to the success of nursery stock. The ground should be plowed or spaded deeply. Holes should be large enough so the roots can be spread out without crowding. Soil should be packed firmly around roots so there are no air spaces and so roots are in tight contact with the soil. After planting, water thoroughly with hose twice a week until established.

AN ADAMS GIFT CERTIFICATE

The Answer to Your Gift Problems

A plant or tree is always in good taste — always welcome — always suitable for any occasion — Birthdays, Easter, Christmas, House-warmings, Anniversaries or as a Memorial.

Living plants are the gifts that grow in size and value as the years go on. There is no need to ponder WHAT to select; the recipient has the fun of selecting just what he wants here at the nursery. OR, if you prefer, you may select the plant to be given and there need be no mention of a stipulated amount. The Adams Gift Certificate is so worded that either the particular plant OR the amount given may be specified.

For a Gift Certificate, just SEND US:

1. The name and address of the person who is to receive the certificate.
2. YOUR name and address.
3. Your check or money order for the amount of the gift.

WE WILL:

1. Send the Gift Certificate to the recipient at once (or to you, the donor, if you prefer).
2. Send the Gift Certificate so as to arrive on a certain date if you will tell us the date.

There is no fuss and bother with the Adams Gift Certificate and more and more people are using this intriguing way of remembering — and being remembered.

EVERGREENS

***Indicates broad-leaved varieties.**

Evergreens are one of the most useful classes of plants because of their year-round attractiveness and permanent beauty. They are immediately ornamental after planting. In Summer, Evergreens give a refreshing coolness to the scene and in Winter their cheerful colors break the otherwise dull Winter landscape.

They may be divided into two general classes: Those of a truly dwarf habit of growth, which makes them desirable for foundation plantings, and those that attain considerable size and height, which makes them suitable for backgrounds, windbreaks, and specimens. With the exception of Pines, Firs and Spruces, Evergreens are greatly benefited by an annual shearing during July.

A good selection of Evergreens is a permanent investment, increasing in value yearly. To those who are unfamiliar with their characteristics we suggest that you permit us to help you select the right plant for its proper place.

All Evergreen Prices include balled and burlapped. When ten or more plants of the same variety and size are purchased a 10% discount will be allowed.

Juniperus JUNIPER

The Junipers vary greatly in habit from tall, pyramidal trees to low, prostrate or trailing shrubs. They are resistant to cold and drought and thrive best in a sandy loam, moderately moist, but grow well in rather dry, rocky and gravelly ground. They prefer sunny, open situations. Some of the dwarf varieties are excellent for foundation plantings.

Picea**SPRUCE**

The name *Picea* comes from the Latin word *pix* meaning "pitch." Among the members of this family are found handsome and enduring trees for landscaping as well as producing some of the most valuable timber in the world. They are native to the northern hemisphere and like a moist but well-drained soil. Do not thrive in dry, sandy regions as well as pines.

P. abies**NORWAY SPRUCE**

Especially valuable for windbreaks, hedges, and reforestation. Makes a tall, pyramidal-shaped specimen often used as a living Christmas tree. Plants will be available in tubs during December for home use as live Christmas trees. The cost of tub and tubbing will be added to prices below.

Pinus**PINE**

In economic importance the Pine stands above all evergreen trees. It grows in a wide variety of soils and under a broad range of climatic conditions. It will not, however, endure shade, smoke, or an excess amount of dust. It prefers the open country, hillsides, and sandy slopes. Will withstand considerable drought and flourish on poor soil. Except for a few dwarf varieties, they are adapted for making groves, forests, wind-breaks, backgrounds, and specimens.

P. 'Mughus'**MUGHO SWISS PINE**

This is a low, flat, spreading evergreen growing horizontally to form a dense, compact mat. Rather coarse in texture but very useful for foundation plantings or rockeries. Endures semi-shade.

Rhododendron

Dignified dark glossy green foliage with brilliant regal flowers. With the exception of the hybrids, they are native of the Appalachian Mountains and adopted to our New England climate. Easy to grow if given partial shade and a moist acid soil. They do best when planted in masses where the sheltering shade of each plant benefits its neighbor.

R. carolinianum***CAROLINA RHODODENDRON**

The leaves are small and narrow, dark green above and covered with brownish dots beneath. Clusters of clear rose-pink flowers appear in May.

TRIMMING SERVICE

Many of the evergreens, especially *Taxus*, *Thuja*, *Juniper* and *Hemlock*, benefit by an annual shearing in late June, July or August. Moderate trimming each Summer makes for a bushy, compact plant that is less susceptible to sleet and snow damage.

Our men will be available for this service during the Summer or Winter months. Please phone for rates.

DECIDUOUS TREES

PLANT AMERICA with shade trees. It is hard to picture this country without trees, without the birds which seek their shelter, and without lumber to build our homes. Truly New England has a heritage which our forefathers left us.

Trees do not happen over night. You must plan ahead to enjoy their shade on a hot Summer day.

Mark Twain once said, "Everybody talks about the weather, but no one does anything about it." By planting trees you can **Control Your Private Climate**, increase your comfort, and the valuation of your property.

When ten or more plants of the same variety and size are purchased a 10% discount will be allowed.

CLIMATE CONTROL

Your home can be made cooler in the Summer and warmer in the Winter by planting trees and shrubs in the proper places. Trees which will shade your roof and house walls from Summer heat will reduce your house temperature by 10%.

In the Winter they will shield you from Winter winds and reduce your fuel bills.

The evaporation of large quantities of water through the foliage produces a radiant cooling effect. Trees and shrubs are nature's air conditioners.

TULIPS**HYACINTHS****NARCISSUS**

Block
No.**Berberis thunbergi****JAPANESE BARBERRY**

Naturally a dense, bushy, thorny plant. Its graceful habit, vivid Autumn coloring, and beautiful fruits are its distinguishing features. Since the fruits are not liked by the birds, they remain the entire Winter, giving a cheerful aspect to many Winter plantings. Not fussy as to soil requirements and will stand semi-shade. The small, sharp thorns make it a barrier to small animals.

Buddleia alternifolia**CHINESE BUTTERFLYBUSH**

Erect, spreading shrub. The narrow panicles of lavender-purple flowers resemble so much those of the lilac that it is sometimes called the Summer Lilac. This graceful shrub is the hardiest of all the Buddleias.

B. 'Charming'

A new glorious Buddleia, bearing throughout late Summer and Autumn long sprays which compared with other Buddleias are distinctly pink.

B. 'Ile de France'

A splendid new form. Easily the finest of all Buddleias because of its massive spikes of purple flowers, each illuminated by a brilliant golden eye. Vigorous, free-flowering, hardy type.

SHRUB TRIMMING

The proper time to trim flowering shrubs is after they complete their blooming period.

Our men will be available during the summer and winter months for this service.

HOLLAND BULBS

We have shipped to us direct from Holland a comprehensive assortment of Tulips, Narcissus, Hyacinths, Crocus, and miscellaneous bulbs. They leave Holland in late August and arrive at our nursery about Sept. 15th. We handle only the largest bulbs obtainable. Our prices will compare favorably and are not to be confused with smaller sized bulbs.

If you want to enjoy Spring Glory of Holland Bulbs you must plant this Fall.

CLIMBING VINES

Some are evergreen like the Euonymus. Others produce beautiful flowers such as the Clematis, Honeysuckle and Wistaria. Should you want Fall color choose the Ivys and for colorful fruits the Bittersweet. They will transform bare walls and fences into beauty spots. For similar purposes may we suggest Climbing Roses which will be found on page 49.

When ten or more plants of the same variety and size are purchased a 10% discount will be allowed.

HOLLAND BULBS

We have shipped to us direct from Holland a comprehensive assortment of Tulips, Narcissus, Hyacinths, Crocus, and miscellaneous bulbs. They leave Holland in late August and arrive at our nursery about Sept. 15th. We handle only the largest bulbs obtainable. Our prices will compare favorably and are not to be confused with smaller sized bulbs.

If you want to enjoy the Spring Glory of Holland Bulbs, you must plant this Fall.

PLANT MORE FRUIT TREES

Fruit trees are just as decorative as any ornamental tree. Apple trees provide both fruits and shade as well as beautiful blooms. They have been inspected and certified by the "Massachusetts Trueness-To-Name Inspection Service."

When ten or more plants of the same variety and size are purchased a 10% discount will be allowed.

SPRAYING SERVICE

HEALTHY EVERGREENS are assured when sprayed at the proper time. During late Winter, dormant spraying may be safely done up to March 15th.

In June and July Evergreen spraying may again be necessary to combat Summer infestations. Our men and equipment are available at these times to render service. Please phone for rates. We are not equipped to spray fruit trees.

TRIMMING SERVICE

Many of the evergreens benefit by an annual shearing. This is especially true of the Taxus, Thuja, Juniper and Hemlock. A good time to do this is late June, July and August. It is much better to trim evergreens moderately each summer. This will make them bushy and compact, and less susceptible to damage during sleet and snow storms.

Our men will be available for this service during the summer or winter months. Please phone for rates.

FERTILIZERS

For Stronger Plants, Larger Blooms, Better Lawns

To help you keep your plantings in good thrifty condition, we offer the material and treatments which we have found most effective and which encourage good vigorous growth with a minimum of effort.

As new and more effective materials are developed we will have them available at our garden store.

AGRICULTURAL LIME

A finely ground limestone for lawns. This may be applied any time but preferably in Spring or Fall so lawn will be attractive in Summer months. Rate of application is approximately 50 lbs. per 1000 square feet.

CLIMATE CONTROL

Your home can be made cooler in the Summer and warmer in the Winter by planting trees and shrubs in the proper places. Trees which will shade your roof and house walls from Summer heat will reduce your house temperature by 10%.

In the Winter they will shield you from Winter winds and reduce your fuel bills.

The evaporation of large quantities of water through the foliage produces a radiant cooling effect. Trees and shrubs are nature's air conditioners.

Information for Our Customers

TERMS: All prices in this catalogue are CASH PRICES but for the convenience of our customers, we are glad to extend thirty-day terms to established accounts. Also to open new accounts, via references, if order amounts to \$10.00 or more. On first orders, for less than \$10.00, please send check or money order. Our guarantee is void on overdue accounts.

SHIPPING METHODS: Shipments will be forwarded as purchasers direct, but in the absence of instructions we will use our best judgment and forward plants by shortest and safest route.

SHIPPING SEASON: Our shipping season usually begins early in April. Perennials and stock dug with a ball of earth can be moved anytime except during the winter months. Trees and dormant stock can be transplanted either in the Spring or after a killing frost in the Fall. We are not open for business on Sunday.

GUARANTEE

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper after-care, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid for by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

DELIVERIES:

We can deliver without charge on such days as we have trucks in that particular section to the following counties in Massachusetts: Hampden, Hampshire, Franklin, Berkshire, and the western part of Worcester County. Also in Hartford County, Connecticut. If a customer desires delivery outside of our regularly scheduled delivery, or a specific day or hour, there will be a minimum charge of 45 cents per mile, one way for this special service.

Post Office Address:

Please address all letters and communications to the
